

CJC™ Product Sheet - Accessories

APPLICATION

The CJC™ Filter Insert Extractor is used to facilitate the job of changing filter inserts in CJC™ Fine Filters and Filter Separators.

FUNCTION

The CJC™ Filter Insert Extractor is led over the stay bolt in closed position, and the insert can now be removed by lifting the two handles.

Exchanging the inserts as shown below is hereby done easier and cleaner. Therefore, do not forget to order a CJC™ Filter Insert Extractor next time inserts are ordered.

IDENTIFICATION

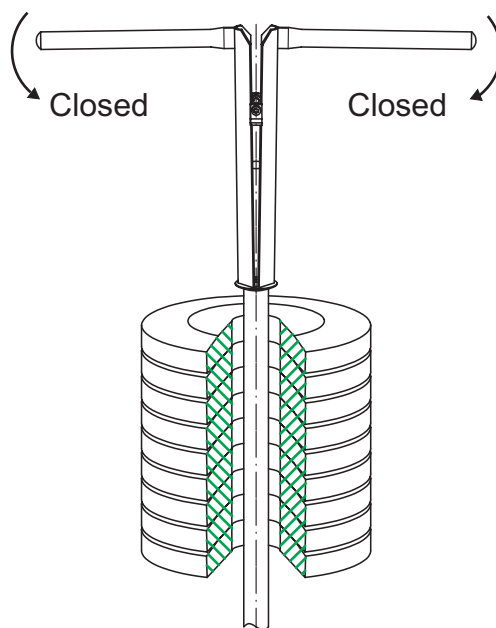

To order the CJC™ Filter Insert Extractor, please use:
